## 3. a. Former Luftnachrichten Kaserne:

Soldiers were red-bordered black epaulets with artilhery insignia or without branch-of-service insignia. Sections of six men. commended by section leaders, precticed change of position with seven guns of about 100 me caliber (splittrail gun carriages) in the barracks yard. Eine AF guns of 70 to 80 mm caliber with muzzle brekes and eleven mortars of 80 to 100 mm caliber were also stending in the barracks yard. Twenty-one about 6x12 meter ground shelters rising about 1 meter above the surface and covered with earth. Sox1-HUM were in a fenced-in area north of the barracks. Beside each ground shelter, 6 to 10 about 200-liter fuel barracks were stored. A rack with fire equipment (shovels, picks and buckets) was between every two ground shelters.

b. The officers' billets on Edelweisstrasse were only 30 percent occupied by army officers on 15 February 1950. Dependents were not observed.

c. The former pigeon station was occupied by about 400 recruits wearing red-bordered black epaulets without branch-of-service insignia on 15 February 1950. The troops were observed at field training in 36-man platoons, each equipped with three machine guns and 30 submachine gunners (sic). No motor vehicles were observed.

Comment:
a. The report confirms, in Bernau, component units of the 6th Gds Mecz Div.
b. The 35th (?) Gds Mecz Regt and the 240th Gds Mort Regt and, presumably, other component units of the division are believed to be stationed in the Luftnachrichten Keserne on Edelweisstrasse and Schoenwalderstrasse.
c. The hcs 6th Gds Mecz Div may be in the headquarters building on Weinbergstrasse.  a restricted area was on Karl-Marx-Strasse, Bernau. As both streets run parallel north-south, it is assumed  50X1-H
that the division headquarters may be in the block between the two streets.  50X1-h
